Clean Air Fund, Appointment of Associate Director - India

We believe in a world where everyone breathes clean air.

The Clean Air Fund is a global philanthropic initiative that works to achieve clean air for all.

Founded in 2019, we are well-resourced and scaling fast; funded by a growing partnership of leading foundations with interests across health, climate, children and mobility. By bringing these and other organisations together, we hope to identify and create best practice, share learnings, connect people and ensure solutions are rapidly scaled up and replicated around the world.

We are now seeking a dynamic, strategic individual with gravitas and cross-cultural fluency to join us as Assistant Director-India as we expand our work and presence in a key geography for air pollution reduction. As part of our global Programmes Team, the individual will work with the the Director of Programmes and the Senior Leadership Team to determine strategic goals, design grant-making and partnerships strategy. The appointee will select projects to drive the Government of India’s strategies and plans on air quality at national, local and city levels, and translate these learnings into thought pieces that elevate CAF’s profile in India and globally. They will oversee the establishment of CAF’s new office in India, building and leading a team of two to grow into a broad network of influential leaders from across sectors who can act as partners and advisors for the new organisation.

The successful candidate will be fluent in English and Hindi, bringing a track record of strong leadership, development and implementation of strategy, influencing skills, and knowledge in either climate, air quality or health. They will have experience of growing and managing a team, strong networks, and a deep understanding of the policy landscape and best practice in NGO leadership in India. Most importantly, we are seeking a collaborative, pragmatic self-starter with highly developed interpersonal skills, comfortable working at pace in a rapidly growing environment.
